CARBON-6 INSTRUCTIONS

Thank you for your purchase of the 3rd Generation of Carbon-6 High Performance LED Driving Lights. Along with all the team at Triple-R, I hope you're delighted with the performance and build quality of your new lights, and they deliver a safer and faster night driving experience. As always we value your feedback and would welcome you to leave a review on our website.

Some race teams may wish to activate the different modes of these lamps by using a PWM signal. PIN 3 is PWM capable, so race teams should use a 100Hz PWM frequency, in order to obtain different beam patterns.

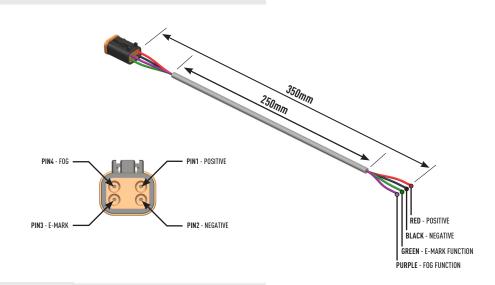

See table.
