

UTILITY-25 CHASE

The **UTILITY-25 CHASE LIGHT** is engineered for off-road and racing applications to enhance rear visibility in rain, fog, and low-visibility conditions, helping keep vehicles visible and convoys safe. It features an integrated color-switching system that allows quick changes between blue (default) and green light to suit varying race requirements or conditions. Supplied with male/female Deutsch connectors (DT06-2S/DT04-2P) and ADR approved with additional cable protection, the Utility-25 includes a durable satin black-painted stainless-steel mounting system that enables flexible installation in multiple orientations; users should always verify local and race regulations regarding permitted light colors.

KEY FEATURES

- In-built Blue (default) and Green LEDs
- CAE optimized 'Matrix' cooling system offers improved thermal dynamics
- Electronic thermal management system optimizes light output to preserve longevity of the LEDs
- Anodised pre-treatment and automotive grade powder top-coat for ultimate corrosion and chemical protection
- Over voltage and Reverse polarity protected
- 'Unbreakable' polycarbonate lens with hardcoat lacquer
- IP68 watertight
- 5-year warranty
- Supplied with pre-wired male/female 2-pin Deutsch connectors
- Designed and manufactured in UK

TECHNICAL SPECIFICATIONS

	BLUE LIGHT	GREEN LIGHT
POWER CONSUMPTION	20 WATTS	24 WATTS
PEAK CURRENT DRAW	2.46 AMPS	2.46 AMPS
CURRENT DRAW @ 14.4V	1.4 AMPS	1.7 AMPS
WEIGHT	0.8 LBS	
IP RATING	IP68 WATERTIGHT	
ADR APPROVED	YES	
CONNECTOR	2-PIN DEUTSCH DT (+25CM CABLE)
